

Calculations without Calculators

Wednesday 1.15pm - 2.45pm

Do you need to upskill your maths and refresh yourself with calculation methods without the use of a calculator?

Perhaps you've forgotten how 'borrowing' works or not sure about what method to use to multiply?

This is a free adult maths course that will help you 'get to grips' with non-calculator mental and written methods ready for everyday or for exams-Functional Skills or GCSE maths.

Chloe loves teaching maths and over the 5 week online course will help you become confident in your maths skills too.
